Summary of StrataSync v7.8 Changes

- Improved Option Deployment Capabilities
- Improved Role Assignment Restrictions
- StrataSync Mobile Tech App v2.0.0

GO LIVE JUNE 15, 2018

Improved Option Deployment Capabilities

The Improved Option Deployment Capabilities now allow users to better identify a subset of assets to which options can be deployed.

Key Points

- View is now customizable using all asset fields.
- Customized views can be saved and recalled for multiple option deployment.

Steps:

1. Go to the Assets tab
2. Scroll down and select manage Asset Options
3. Use Customize view to add fields for the search

Improved Role Assignment Restrictions

The Improved Role Assignment Restriction prevents a user granting Roles or Permissions that the user does not have.

Key Points

- A user can only grant Roles and Permissions to others that the user has. Cannot grant permissions to others that they do not have.
- Applicable via the GUI and Spreadsheet Import.
- GUI Drop Down box populates with a filtered list of roles and permissions that are grantable.

StrataSync Mobile Tech App v2.0.0

Added support for StrataSync Mobile Tech App for MTS-5800 instrument families.

Key Points:

- Support for the T-BERD/MTS-5800 with its upcoming firmware release
- File Manager feature for T-BERD/MTS-5800 includes sending camera photos to the T-BERD/MTS-5800 and downloading reports that can be exported to email or other apps
- Guest mode to try the app out without a StrataSync account
- Ability to share your SmartAccess Anywhere code to SMS or email from your T-BERD/MTS-5800
- [Quick Start Guide](#) available

System Requirements:

- StrataSync Account/Credentials or use of Guest mode
- Instrument: ONX CATV or ONX DSL
 - FW Ver 3.6.19 or higher (CATV)
 - DSL: FW Ver 7.1.17 or higher (DSL)
 - **ONX BLUETOOTH** and **ONX MOBILE** SW Options Installed
- Mobile Device:
 - Android v5 or higher
 - iOS v10 or higher
